

ABSTRACT OF THE DISCLOSURE

If the tray for the copy mode is set at the position corresponding to the discharge port when the copy key is operated, an image is immediately read and the read image is printed on a paper sheet. If the tray for the copy mode is not set at the position corresponding to the discharge port, the tray for the copy mode is moved to the position corresponding to the discharge port, an image is read after completion of trays motion, and the read image is printed on a paper sheet. If the tray for the printer mode is set at the position corresponding to the discharge port when an image is inputted to the input section for the printer mode, the inputted image is immediately printed on a paper sheet. If the tray for the printer mode is not set at the position corresponding to the discharge port, the tray for the printer mode is moved to the position corresponding to the discharge port and the inputted image is printed after completion of trays motion. If the convenient key is operated, an image is immediately read without moving each of the trays and the read image is printed on a paper sheet.
